Dear Mark and Kim,

Thank you for coming round to see me and to explain your plans for the Tyler Foundation, which you and your Japanese partners are establishing here in order to help children with cancer and their families.

I was impressed by your strong commitment and by the realistic and careful plans which you have drawn up on the basis of your business experience. I hope that the Foundation will be highly successful in supporting what is a very good cause, and I would be happy to lend my assistance in the ways which we discussed.

I would have no objection if you wished to show others this letter.

Yours sincerely,
Graham Fry
